Environmentally sealed IP66, IP67, IP68 and IP69K waterproof circular connectors, IEC connectors, battery holders, EMI filters, fuse holders, vandal resistant LED's, vandal resistant and rocker switches. <https://www.bulgin.com/en/>

Standard and custom temperature sensors. PTC, NTC Thermistors, RTDs (Resistance Temperature Detectors), Thermistor Probe Assemblies and RTD Probe Assemblies.

<https://www.ei-sensor.com/>

High-performance LED lighting solutions with unrivaled durability and efficiency for rough service and spec-grade applications. <https://elumigen.com/>

Complete product range for low voltage power distribution and grounding connections. Specializes in providing customers compact, reliable and cost-effective solutions.

<https://www.nvent.com/en-us/eriflex>

Circuit protection devices, relays and solid state remote power controllers, power management, power distribution and battery isolation switches. <https://www.e-t-a.com/home/>

Standard, modified and custom-built enclosures in mild and stainless steel. Aluminum and non-metallic, Proline Modular Enclosure Systems, Disconnects, Human-Machine Interface (HMI). Hoffman air conditioners, heat exchangers, fans, blowers. <https://hoffman.nvent.com/en-us/>

LEDs for the Industrial Controls market, with a full line of LED Indicators for panels and equipment along with Indoor and Outdoor lighting solutions. <https://www.ledtronics.com/>

Worldwide leader to the electrical and network infrastructure industries. Products including cable ties, wiring accessories, terminals, lugs, identification systems, wiring duct, heat shrink tubing, wire abrasion protection, and accessories. <https://panduit.com/>

Innovative interlocking wire management for solar and many other raceway applications. <https://solarraceway.com/>

Leading manufacturer of hand tools for professional use. Insulated Tools, electrostatic discharge, slim technology tooling, all with the highest quality on the market today.

<https://www.wihatools.com/>

Worldwide specialist for international fuse and Busbar systems in the field of power distribution, control tech., & renewable energies. <https://www.woehner.de/en/>
